International partnerships between CMS and CM

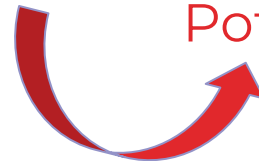

Context

CM and CMS are **actors that group together**, at national level, key actors of social mentoring.

Close objectives

Same challenges

Potential to collaborate

The start of an European Quality System

The MC Seal by CMS

A system to evaluate and improve the **methodological quality** of all types of social mentoring programmes.

It establishes **10 requirements** to validate its methodological. For each requirement, **a set of standards** has to be required.

The start of an European Quality System

The MC Seal by CMS

In this process reflection, contextualization and prioritization of possible improvement actions are of great importance.

The start of an European Quality System

Why the Collectif Mentorat wants to get involved with the Quality Mentoring Seal ?

Sharing of common goals :

- The seal guarantees and promotes quality mentoring
- The seal as a major support offered by Coordinadora de Mentoria Social and Collectif Mentorat to its members
- The seal leads to a trustworthy environment for the program certified and those involved in it

The start of an European Quality System

Why the Collectif Mentorat wants to get involved with the Quality Mentoring Seal ?

What are the challenges for such project ?

- How to achieve quantity with quality, requirements and pragmatism ?
- How to create a common seal that takes into account the diversity from the mentoring programs, the different needs and realities from the field ?

Workshops

Questions :

1. International alliances :

- How this type of partnership can be replicated, amplified and expanded in Europe?
- What are the key elements for a successful international partnership?
- How can we rely on the European Union's institutions and European networks to promote such partnerships in Europe?
- In your opinion, what would be the common topics that could enable the foundation for an international partnership?

2. Quality seal questions :

- What advantages/benefits offers the seal to promote quality mentoring?
- What challenges and opportunities for this quality approach in Europe?
- Which conditions (or requirements) are necessary in order to extend this quality seal to other countries?
- How can the research community be involved in the process?

Thanks - Gracias - Merci
